Dear Vic:

I was talking to New York today and they told me that they had not as yet received your lease contract. I assured them that it was coming because when they informed me that there were but three lots left which were available for state exhibits I told them they had better not let Illinois' space get away from them.

I tried to phone you this morning and learned that you were in Washington. Hope that you had a good trip.

Kindest regards,

Everett T. Winter
