Mr. Arnold Belasco
Director of Advertising
The Mosler Safe Company
320 Park Avenue
New York, New York 10022

Dear Mr. Belasco:

Bill Eurtin, our designer, and Gardner Displays have worked out a means to use your safe as a combination display and security facility in the Manuscript Room of the Illinois Pavilion.

This will serve as our formal request to use your safe at the pavilion, along with the promise to modify it by removing the wheels and kick plate and affixing plywood-backed marble to the safe.

The designation of the safe which you showed us and which has been used as the basis for our design is catalog #344111, code #302360.

Jim Caskill of Gardner Displays, whom you met during our discussions in New York, will work out the exact scheduling directly with you.

Please accept our thanks for your outstanding cooperation. You can be sure that whenever possible we will credit The Mosler Safe Company as the supplier of the security for the Gettysburg Address and other important Lincoln manuscripts.

Best regards,
