Gentlemen:

Enclosed are the signed leases as you requested.

You understand, I am sure, that since the Illinois General Assembly has not authorized our participation in the New York World's Fair, nor appropriated any money for this purpose, my signing of this lease has no legal effect.

I am conforming to your request to sign and return them in order to reserve the parcel of ground, which we believe will be most advantageous to this State if the General Assembly or a non-profit private group appropriates money for this purpose, and since you have informed me that this specific parcel would be assigned to another state unless a lease was executed.

Sincerely yours,

Victor de Grazia
